

6.25 Inches Motorcycle Player

Product manual

1. Product Overview

This product can be connected to [Carplay] or [Android Auto] to achieve mobile phone interconnection function. You can use navigation when connected and play music when connected to a motorbike Bluetooth headset. The TF card slot and Type-C port are used for software upgrade. Do not open the port cover unless necessary. Otherwise, the waterproof performance of the whole machine will be affected.

Automatic brightness adjustment:

The machine's built-in light sensor automatically adjusts the brightness of the machine's screen depending on the brightness of the surrounding environment. It is not possible to adjust the brightness manually in auto-brightness mode.

Click the ' ' button on the sidebar, and then click ' ' to turn off the automatic brightness adjustment function.

Tap ' ' to switch to auto-brightness mode.

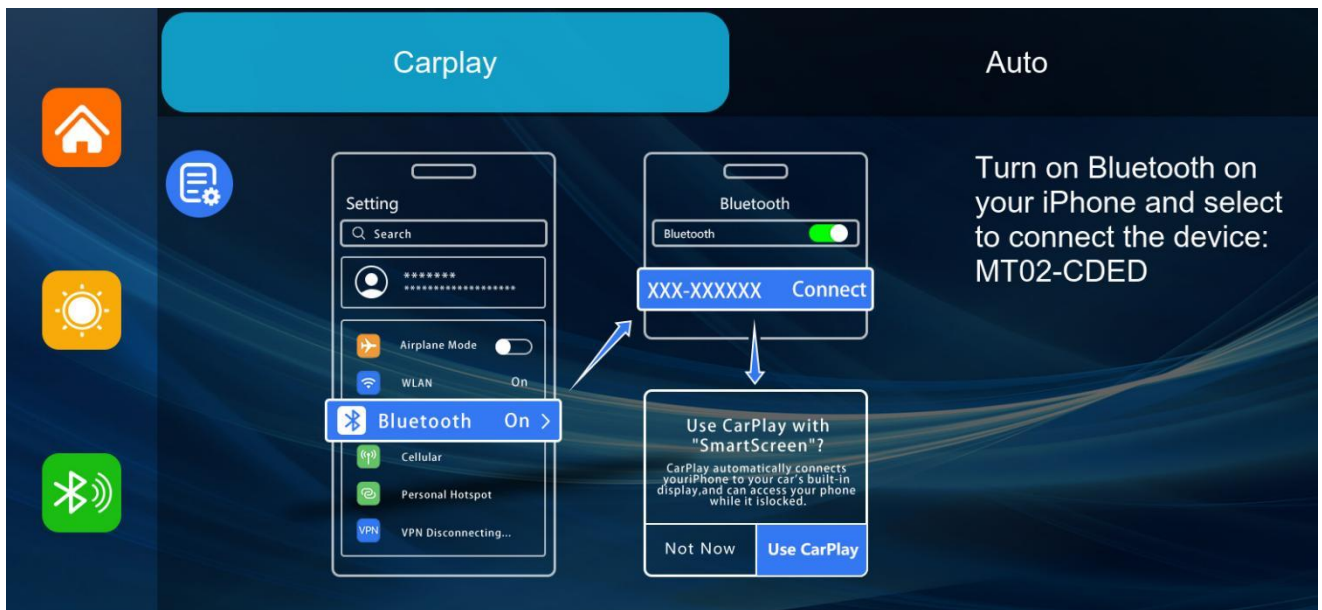

Status bar icon description:

	Indicates that Bluetooth is turned on
	Indicates that Bluetooth is connected
	Indicates that the machine's WiFi is turned on
	Indicates being in CarPlay projection mode
	Indicates being in Auto screen projection mode
	Indicates that the touch control function has been turned off
	Motorbike battery voltage

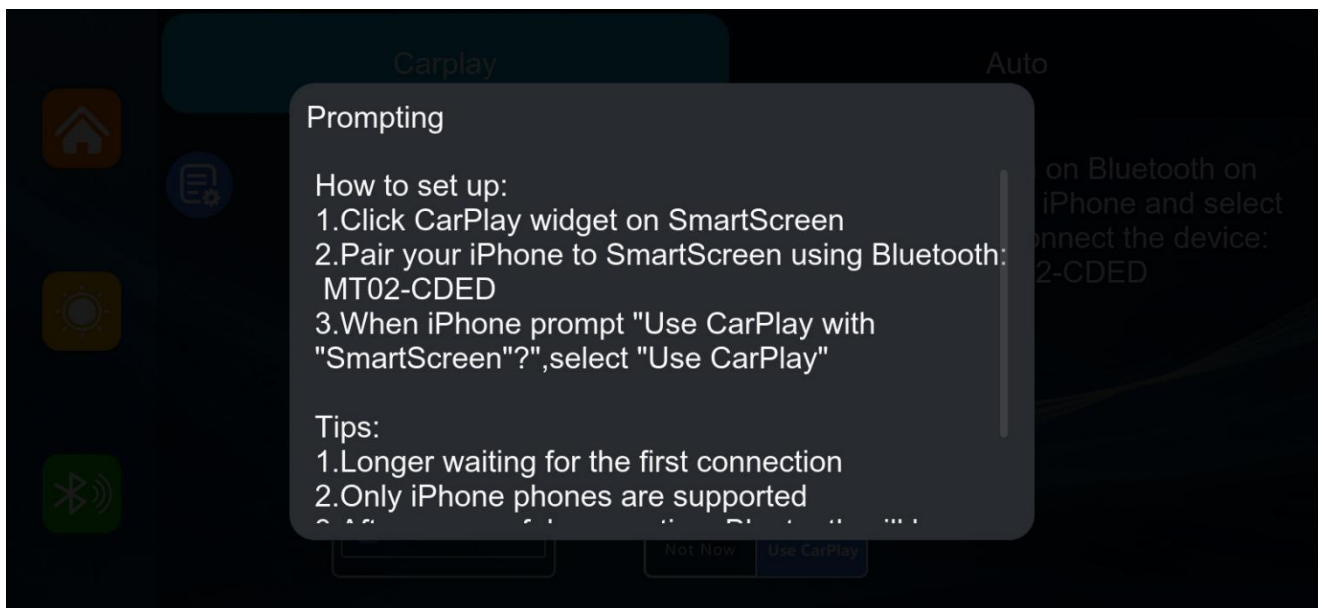

Rainwater mode (lock screen):

To prevent the screen from being accidentally touched by rain drops on a rainy day. You can long press the third button of the cable box for 5 seconds to turn on the rain mode. When this mode is turned on, the screen touch will be turned off and can be unlocked by long pressing the third button of the cable box again for 5 seconds.

A. CarPlay

As shown in the above figure, click the 'CarPlay' button, then select the 'CarPlay' option, and first turn on the phone's WiFi and Bluetooth, as shown in the above figure. Bluetooth will automatically turn on, named MT02-XXXX. Once Bluetooth is successfully connected, you can connect to CarPlay. (When the machine is powered on, it will attempt to automatically connect to the last connected phone)

Click the Details button for detailed connection steps and connection FAQs.

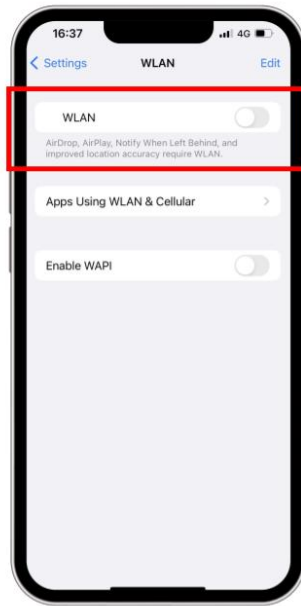

Click Assistive Touch to display the shortcut menu: [Back to Home], [Volume Adjustment], [Brightness Adjustment].

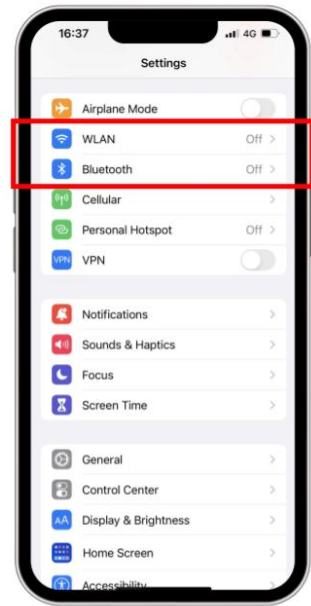

(CarPlay option is only supported for Apple mobile phones. Please turn off the Bluetooth button and then the WiFi button in your phone's settings to disconnect.)
